

CHIRAG VATS

SOFTWARE DEVELOPER | FULL-STACK ENGINEERING | AI | CLOUD

New Delhi, India | 9810382261 | contactchiragvats@gmail.com
linkedin.com/in/chirag-vats | chiragvats99.github.io/portfolio

AI-focused software developer building intelligent, customer-facing products across full-stack engineering, Java microservices, cloud, and conversational AI. Hands-on with MCP, LangChain, FAISS, embeddings, and RAG, with proven impact including **500+ automated tests**, **40% faster execution**, and coverage growth from **40% to 80%**.

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, Python, SQL

Frontend: TypeScript, React, Preact, TSX, HTML, CSS, component-driven UI

Backend: Java microservices, REST APIs, Node.js, Express.js, Flask

Testing: Playwright, Cypress, Jest, pytest, E2E, component, integration

AI: MCP, Generative AI APIs, LangChain, FAISS, embeddings, RAG, face-api.js

Cloud/DevOps: AWS, Kubernetes, Firebase, CI/CD, Git/GitLab, JFrog

PROFESSIONAL EXPERIENCE

Application Developer Oracle | Gurugram, India

Jul 2025 - Present

- Engineer customer-facing enterprise modules across **8+ product areas** using TypeScript/TSX, component-driven frontend architecture, Java microservices, and REST APIs.
- Designed progressive loading, skeleton states, and resilient API fallbacks across **10+ high-traffic UI surfaces** and GET/POST workflows, eliminating stale, undefined, and misleading states during delayed responses.
- Owned **5+ high-impact epics** through production; advanced MCP chatbot and GenAI POCs, reviewed **8+ merge requests per sprint**, supported releases, mentored new team members, and earned **Sprint MVP in 4 of 9 sprints**.

Project Intern Oracle | Bengaluru, India

Jan 2025 - Jul 2025

- Built an application-wide progressive-loading experience with **Preact and TypeScript**, improving perceived responsiveness and UX across the product.
- Authored **500+ Cypress E2E tests**, exposed critical defects, cut execution time by **40%** through parallelization, and doubled component coverage from **40% to 80%** with Cypress and Jest.
- Strengthened CI/CD with secure shell scripts and environment variables; built dependencies from source with Maven, Gradle, and npm while delivering features and resolving **8-10 bugs**.

Software Engineering Intern Jacobs, PPS Business | Gurugram, India

Aug 2023 - Dec 2023

- Developed a full-stack analytics application with React, Bootstrap, Node.js, and SQLite, supporting structured data processing and dashboard reporting.
- Led analysis across **100+ Microsoft Teams meetings**, translating engagement data into **10+ interactive Highcharts dashboards** in partnership with **3+ cross-functional stakeholders**.

PROJECTS

Face Recognition System

2024

Tech: React.js, Node.js, Express.js, Firebase, face-api.js, TOTP/MFA | Built passwordless facial authentication with multiple detection/recognition models and Google Authenticator TOTP-based MFA.

Chat with Multiple PDFs

2024

Tech: Python, Flask, LangChain, FAISS, PyPDF2, Generative AI | Developed a multi-document RAG application with semantic embeddings, vector search, context-aware responses, and supplemental internet search.

Garbage Segregation and Monitoring System

2023

Tech: Arduino UNO, IoT sensors, Python, Firebase, servo motors | Automated waste detection and segregation with IR, ultrasonic, and moisture sensors; streamed telemetry to Firebase for Python-based monitoring.

EDUCATION

Bachelor of Technology in Information Technology Vellore Institute of Technology, Vellore

2025

CGPA: 9.18/10

Class XII - CBSE | Pragati Public School, Delhi

2021 | 88%

Class X - CBSE | Pragati Public School, Delhi

2019 | 94.2%

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate** | Amazon Web Services | Jun 2023
- **Ethical Hacking** | NPTEL | Jun 2023

LEADERSHIP AND RECOGNITION

- **Senior Core Committee Member, VIT Spartans:** Planned club initiatives and coordinated TEDx Talks at Gravitas 2022.
- **Student Council:** Head Boy (2021), Vice Head Boy (2020), House Captain (2018), and Discipline In-Charge (2017).
